

### End of Unit

Cincinnati Neighborhoods Map

Using the map, answer questions 1-5.

1. Is this a physical or political map? How do you know?

Political Map- shows the boundaries of the Neighborhoods of Cincinnati

2. Give the map a title and label the compass rose.

3. Draw an alphanumeric grid on the map. In what quadrant is Mt.

Washington located? East Price Hill?

Answers may vary based on each student's labeling of their alphanumeric grid. Make sure map looks similar to the one presented above.

4. In what direction would I travel to get from East End to Clifton?

Northwest

Name \_\_\_\_\_

5. List two ways Cincinnati has changed over time and explain why those changes occurred.

Answers may vary. Can include answers like: expansion of business, expansion of settlements, change from wilderness to city, change from producing goods to providing services in the city.

6. Below are two photos of Elm Street. One from the 1900s and the other from present day. Describe what you see. How has Elm Street changed since the 1900s?

Courtesy of the Library of Congress, LC-DIG-det-4a17314
